

VE COMMODORE DASH POD

Part No: SGP5104

Installation Instructions

v20201207

Important notes before installing:

- All installation work should be done by a qualified professional to avoid damage to this product.
- This product is supplied raw with a brushed surface finish and may discolour or warp if exposed to direct sunlight for long periods. To avoid this, SAAS recommends colour matching this product to suit your vehicles interior and using a **sun shade** to protect the dash pod and gauges from extreme heat!
(See below for painting tips)

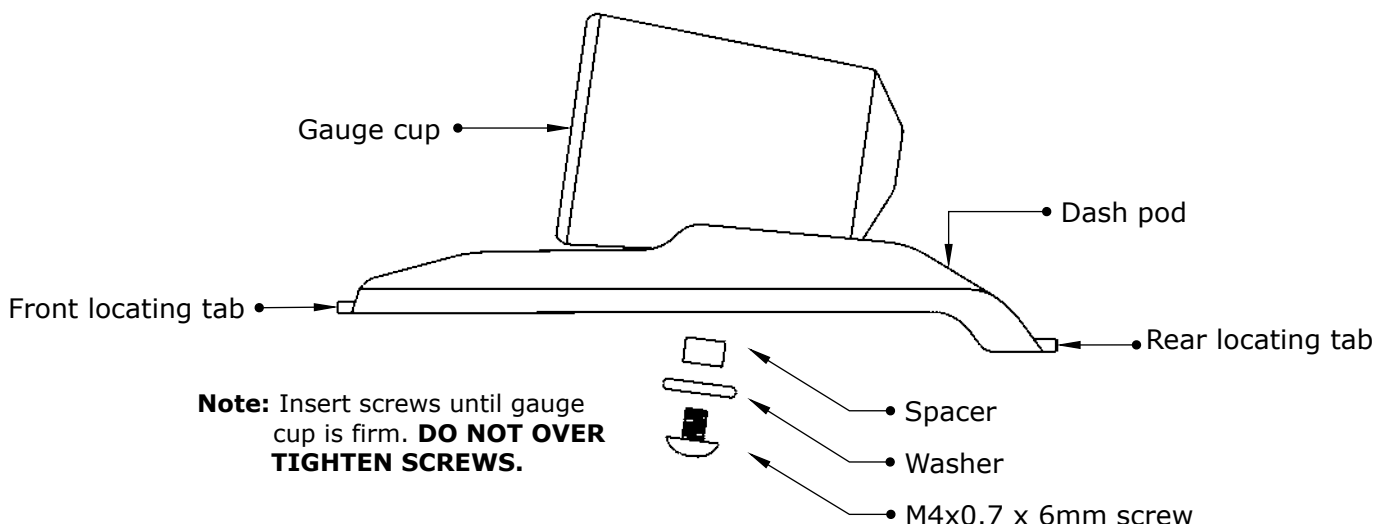

Fitting Steps:

- Please test fit your dash pod before painting.
- Remove the centre dash trim from the back (closest to the windscreen) carefully using your hand or suitable tool.
- Without the gauge cups fitted, insert the dash pod by placing the back locating tab under the centre dash vent trim closest to the windscreen.
- Move the dash pod back a little so the front locating tab can be tucked under the factory dash trim and then push the dash pod forward into position. **Please note** that the front and rear locating tabs are designed to hold the dash pod into position only, do not apply a lot of force to these tabs or they may snap off and will **not** be covered under warranty!
- Once you have test fitted the dash pod, remove it, paint it (recommended for best look) and assemble the gauge cups. (See diagram below)

Fitting and Painting Tips:

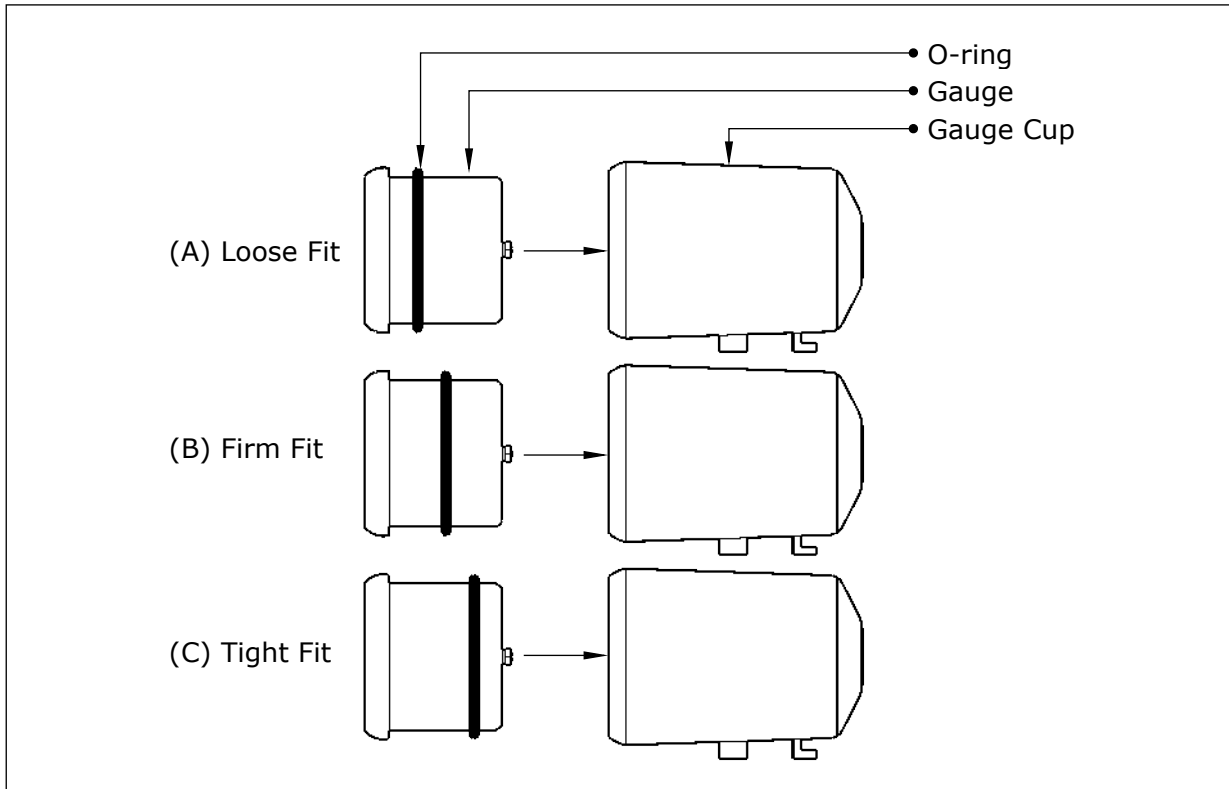

- For best painting results, use a scotch pad to lightly scuff the surface, then clean with a wax and grease remover before applying a plastic primer and then your colour.
- To lock your dash pod into position apply some good quality double sided tape to the locating tabs before installing, this will insure your dash pod stays in position.

Dash Pod Assembly:

Installing Gauges to Cups:

- The supplied o-rings (one for each gauge) are used to fit gauges to cups. The placement of the o-ring will determine how tight the gauge will sit in the cup. (refer to diagram)

Warranty Terms & Conditions:

SAAS Automotive Pty Ltd warrants this product against defects in factory workmanship and materials for a period of twelve (**12**) months from the date of original purchase. This warranty applies to the first retail purchaser, is non-transferable and covers only where the product has been subjected to normal use or service. Provision of this warranty shall not apply to any SAAS Automotive product that has been used for a purpose for which it is not designed, or which has been altered in any way that would be detrimental to the performance or life of the product, or misapplication, misuse, negligence or accident. Warranty claims to the manufacturer must be transportation prepaid and accompanied with dated proof of purchase. On any part or product found to be defective after examination by SAAS Automotive Pty Ltd, SAAS Automotive Pty Ltd will only repair or replace the merchandise through the original selling dealer or on a direct basis. SAAS Automotive Pty Ltd assumes no responsibility for diagnosis, removal and/or installation labour, loss of vehicle use, loss of time, inconvenience or any other consequential expenses. The warranties herein are in lieu of any other expressed or implied warranties, including any implied warranty of suitability, and any other obligation on the part of SAAS Automotive Pty Ltd, or the selling dealer.
